

## Help Protect Your MasterCard® ATM/Debit Card From Online Fraud

MasterCard SecureCode — an online security service to guard you against unauthorized use of your MasterCard card while shopping online at participating merchants. There is no need to get a new card, no software to download, no cost, and no hassles... just added security. Once enrolled in this service, you'll have added confidence knowing that MasterCard SecureCode performs an extra authentication step to protect your account from unauthorized users online.

### How To Register

To register, have your MasterCard debit card handy, so you can create your personal SecureCode and be ready to start shopping online at participating merchants. Register Now for this FREE service by clicking the MasterCard SecureCode Link on the Security tab at [www.ChampionCU.org](http://www.ChampionCU.org).

## Help Protect Your CCU Platinum Rewards Visa® from Online Fraud

Verified by Visa is a global solution designed to make online purchases more secure by helping ensure payments are made by the rightful owner of the Visa account. One of its objectives is to continue to build consumer confidence in online shopping—similar to that in a physical shopping environment.

Verified by Visa often works behind the scenes when you're shopping online. There may be times when you will be asked by your bank to provide more information to confirm the purchase. This helps make certain that you're the only person using your card online.

Visa offers comprehensive fraud protection, but Verified by Visa goes even a step further, adding an extra layer of security when you enter credit card information online.

### How To Register

To register now for this FREE service, click the Verified by Visa Link on the Security tab at [www.ChampionCU.org](http://www.ChampionCU.org).
