

Real Time Payments Coming Soon!

Real-Time payments (RTP) are payments that are initiated and settled nearly instantaneously. Real –time payments provide 24 hour / 7 days a week access, including weekends and holidays.

All Incoming payments that are processed from The Clearing House Real Time Payment (RTP®) network require the recipient account to be validated prior to the credit being posted. To accomplish this, CCU will use a trial deposit/reversal method to verify and validate your account prior to posting a real time payment. These trial deposits and the corresponding reversals will appear on your periodic statement (paper and online) alongside the payment from The Clearing House RTP® network as a credit and debit for \$0.01 each time a real time credit is received.
